

Priya Tripathi

Full Stack Developer

902-666-1723 | priyakhejuri01@gmail.com | github.com/Priya123Tripathi | linkedin.com/in/priya-tripathi0852963

PROFESSIONAL SUMMARY

Motivated Full Stack Developer pursuing a Bachelor's in Computer Science and Engineering with a strong foundation in Data Structures & Algorithms and Full Stack Web Development. Skilled in building scalable, end-to-end web applications using React.js, Node.js, Express.js, and MongoDB with proven experience in REST API integration, CRUD operations, and AI-powered tool development. Passionate about leveraging OpenAI and other AI APIs to solve real-world problems efficiently.

PROJECTS

AI Document Learning Assistant

React.js, Node.js, Express.js, MongoDB, OpenAI API

- Developed a full-stack web platform generating flashcards, quizzes, and summaries from uploaded study material, reducing manual content creation time by 60%.
- Architected a responsive frontend using React.js and a scalable backend with Node.js, Express.js, and MongoDB, supporting 50+ concurrent users with minimal latency.
- Implemented complete CRUD operations and OpenAI API integration for AI-powered content generation, increasing study material processing speed by 3x.

AI Virtual Assistant

React.js, Node.js, REST API, Gemini API

- Designed and deployed a web-based AI assistant responding intelligently to user queries in real-time, reducing average query resolution time by 40%.
- Constructed an interactive, responsive UI with seamless Gemini API integration, achieving a 35% improvement in data handling response time through optimized architecture.
- Enhanced user experience through optimized response handling and performance improvements, increasing session engagement by 50% and query resolution accuracy to 90%.

AI Code Review Assistant

React.js, Node.js, OpenAI API, REST API

- Built an AI-powered tool to automatically analyze source code, detect bugs, and suggest quality improvements, reducing manual review time by 50%.
- Leveraged OpenAI API for intelligent error detection and code quality scoring, improving bug identification accuracy by 45% across multiple programming languages.
- Designed a clean, intuitive interface enabling efficient code reviews with minimal effort, streamlining the development workflow for 20+ active users.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

Jan 2023 – Jan 2027

Sagar Institute of Research and Technology (Excellence)

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, HTML, CSS
- **Frontend:** React.js, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **AI & APIs:** OpenAI API, Gemini API, Third-Party API Integration
- **Tools & Practices:** Git, GitHub, Code Review, Data Structures & Algorithms

ACHIEVEMENTS

- **LeetCode:** Solved 200+ problems covering arrays, trees, and graphs.
